Section 63.71 Application of)
)
CenturyLink ILEC Companies) WC Docket No. 19-____
)
For Authority Pursuant to Section 214 of the)
Communications Act of 1934, As Amended,)
to Grandfather the Provision of Low-)
Bandwidth Interstate Private Line Service)

SECTION 63.71 APPLICATION

CenturyLink¹ hereby applies for authority pursuant to Section 63.71(k) of the Federal Communications Commission's (Commission) rules, 47 C.F.R. § 63.71(k), and Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, to grandfather interstate low-speed private line services provided by its CenturyLink ILEC Companies (Affected Services) in all states and jurisdictions in which the Affected Services are provided.

CenturyLink submits the following information in support of its application:

1. Name and address of carrier

CenturyLink
100 CenturyLink Drive
Monroe, Louisiana 71203

RECEIVED
NOV 18 2019
PSC SC
MAIL / DMS

¹ This application is filed on behalf of CenturyLink's ILEC affiliates listed in Appendix A ("CenturyLink ILEC Companies").

2. Date of planned service discontinuance, reduction or impairment

As of February 1, 2020, or as soon thereafter as the necessary regulatory approvals can be obtained,² CenturyLink will no longer offer the Affected Services to new customers, and existing customers of these services will be grandfathered as follows:

- New orders and moves will be allowed only to the extent permitted by existing contract.
- Existing contracts for these services will not be renewed.
- Customers with a contract may retain their low-bandwidth Private Line services on a month-to-month basis once that contract expires.

3. Points of geographic areas of service affected

CenturyLink seeks authority to grandfather the Affected Services throughout its ILEC service territory in Alabama, Arkansas, Arizona, Colorado, Florida, Georgia, Iowa, Idaho, Illinois, Indiana, Kansas, Louisiana, Michigan, Minnesota, Missouri, Mississippi, Montana, North Carolina, North Dakota, Nebraska, New Jersey, New Mexico, Nevada, Ohio, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, Wisconsin, and Wyoming.

4. Brief description of the types of services affected

CenturyLink proposes to grandfather the following services:

- Low Speed Data (aka, Metallic) is an unconditioned two-wire circuit capable of transmitting low-speed varying signals at rates up to 150 baud.
- A Telegraph or Narrowband-Telegraph channel is an unconditioned channel capable of transmitting binary signals at rates of 0-75 baud or 0-150 baud.
- Wideband Analog is a high definition voice quality for telephony audio which extends the frequency range of audio signals transmitted over telephone lines.

² CenturyLink asks the Commission to issue a public notice for this application by Nov. 25, 2019 to allow CenturyLink and its customers to prepare for the proposed Feb. 1, 2020 grandfathering date.

- Analog Voice Grade service is a circuit which provides voice frequency transmission capability.
- Program Audio are one-way, full- or part-time communication services between an Interexchange Carrier Point of Termination (IC-POT) and an End-User POT, or between POTs of the same or different End-Users.
- Analog Video is a video signal transferred by an analog signal.
- Digital Data Service (DDS) is a channel for duplex four-wire transmission of synchronous serial data at the rate of 2.4, 4.8, 9.6, 56 or 64 kbps.
- Wide Area Telephone Service (WATS) Access Line is a combination of switched and Private Line Transport service that provides a connection for volume-discounted WATS and 800 Service calls. The Private Line Transport Service portion of this service is being grandfathered.
- Fractional DS1 is a circuit that carries only a fraction of a DS1 bandwidth.

CenturyLink is grandfathering these services because they are at the end of their product life cycle, as circuit demand has declined significantly. In many cases, the electronic equipment needed to support these services is no longer manufactured. Each of these services is a legacy voice service or a data service operating at speeds lower than 1.544 Mbps.³

The public convenience and necessity will not be adversely affected by the grandfathering of the services described herein, as existing customers have been given significant notice of these changes, and potential customers of these services can seek alternative service arrangements that offer the same or superior capabilities, such as CenturyLink's DS1 or Switched Ethernet service and similar services offered by numerous other providers.

5. Brief description of the dates and methods of notice to all affected customers

CenturyLink notified its retail customers of the planned grandfathering of the Affected Services in a letter sent via United Service Parcel Service or U.S. Mail dated October 30, 2019.⁴

³ See 47 C.F.R. § 63.71(k).

⁴ CenturyLink also notified its wholesale customers of the planned grandfathering of the Affected Services by email on October 30, 2019. CenturyLink has previously obtained express, prior approval from these customers to send notices via email regarding their CenturyLink

Those customers were notified that the proposed grandfathering would take effect on February 1, 2020, or as soon after that date as authorized by the relevant regulatory commissions. Copies of the two forms of customer notification letters CenturyLink used are attached hereto. (See Attachment A and Attachment B.)

6. Whether the carrier is considered dominant or non-dominant with respect to the services to be discontinued, reduced or impaired

CenturyLink is a dominant carrier with regard to the services to be grandfathered.

7. Service

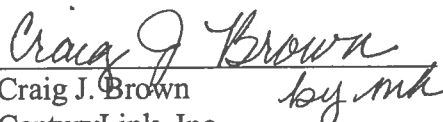

In accordance with 47 C.F.R. § 63.71(a), CenturyLink has mailed a copy of this application to the Governor and public utility commission of each affected state identified in Paragraph 3 above, to any federally-recognized Tribal Nations with authority over the Tribal lands in the geographic areas identified in Paragraph 3 above, as well as to the Special Assistant for Telecommunications under the Secretary of Defense.

Respectfully submitted,

CENTURYLINK

**Important Notice Regarding the Plan to Grandfather Low-Bandwidth Interstate
Private Line Service Provided by CenturyLink ILEC Companies**

Dear «Customer Name»:

On October 1, 2019, CenturyLink notified you by letter of its plan to grandfather low-bandwidth Private Line service provided by its incumbent local exchange (ILEC) companies. Based on customer feedback and to avoid any confusion, CenturyLink is sending this letter clarifying that customers will be able to retain their existing service under CenturyLink's grandfathering plan, subject to the terms described below. This letter supersedes and replaces the October 1, 2019 notice.

At CenturyLink, our goal is to provide you with great quality and value while still remaining competitive. Changing technology and market conditions require that we continually evaluate our prices, product offerings and infrastructure.

Occasionally our evaluation directs us to make changes to some products; therefore we are writing to inform you that CenturyLink plans to grandfather certain low-bandwidth interstate Private Line services provided by its CenturyLink ILECs,¹ in all states in which they are offered,² as of February 1, 2020, subject to approval of the Federal Communications Commission.

¹ Those CenturyLink companies are listed in Appendix A.

² These services are offered in the following states: Alabama, Arkansas, Arizona, Colorado, Florida, Georgia, Iowa, Idaho, Illinois, Indiana, Kansas, Louisiana, Michigan, Minnesota, Missouri, Mississippi, Montana, North Carolina, North Dakota, Nebraska, New Jersey, New Mexico, Nevada, Ohio, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, Wisconsin, Wyoming.

ATTACHMENT A

You are receiving this notice because you currently subscribe to one or more of the following low-bandwidth interstate Private Line services, which, subject to the approval of the FCC, will be grandfathered:

- Low Speed Data (aka Metallic) – Metallic service is an unconditioned two-wire circuit capable of transmitting low speed varying signals at rates up to 150 baud.
- Telegraph or Narrowband – Telegraph service is an unconditioned circuit capable of transmitting binary signals at of 0-75 baud or 0-150 baud.
- Wideband Analog – High definition voice quality for telephony audio which extends the frequency range of audio signals transmitted over telephone lines.
- Analog Voice Grade – A circuit which provides voice frequency transmission capability.
- Program Audio - One-way, full- or part-time communication services between an Interexchange Carrier Point of Termination (IC-POT) and an End-User POT, or between POTs of the same or different End-Users.
- Analog Video – Video signal transferred by analog signal.
- Digital Data Service (DDS) - A channel for duplex four-wire transmission of synchronous serial data at the rate of 2.4, 4.8, 9.6, 56 or 64 kbps.
- Wide Area Telephone Service (WATS) Access Line - A combination of switched and Private Line Transport service that provides a connection for volume-discounted WATS and 800 Service calls. The Private Line Transport Service portion of this service is being grandfathered.
- Fractional DS1 – Circuit that carries a fraction of DS1 bandwidth.

Effective Feb. 1, 2020, or as soon thereafter as CenturyLink receives FCC approval:

- New orders and moves will be allowed only to the extent permitted by existing contract.
- Existing contracts for these services will not be renewed.
- Customers with a contract may retain their low-bandwidth Private Line services on a month-to-month basis once that contract expires.

At this time, CenturyLink is not seeking authority to discontinue existing low-bandwidth interstate Private Line services.

There are various newer technologies and services to use in lieu of these grandfathered low-bandwidth interstate Private Line services. If you also subscribe to other services from CenturyLink, those services will NOT be impacted by the grandfathering of these low-bandwidth interstate Private Line services.

We continue to value our relationship, and please contact your CenturyLink Account Manager if you have any questions about these changes.

We appreciate your prompt attention to this notice and thank you for your cooperation. Thank you for choosing CenturyLink for your business needs.
Sincerely,

CenturyLink

ATTACHMENT A

The following statement is required by the FCC:

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 10 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the § 63.71 Application of CenturyLink ILEC Companies. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

CERTIFICATE OF SERVICE

I, Marjorie Herlth, do hereby certify that I have caused the foregoing **SECTION 63.71**

APPLICATION to be:

- 1) Filed with the Secretary of the FCC via ECFS (Inbox-Section 214 Domestic Discontinuance Application);
- 2) Served via first-class U.S. Mail, postage prepaid, on the Governors of the States listed on the attached service list;
- 3) Served via first-class U.S. Mail, postage prepaid, on the Public Utility Commissions listed on the attached service list;
- 4) Served via first-class U.S. Mail, postage prepaid, or via email on the Regulatory Authority for the Tribal Nations listed on the attached service list; and
- (5) Served via first-class U.S. Mail, postage prepaid, on the Special Assistant for Telecommunications under the Secretary of Defense¹.

 Marjorie Herlth

November 14, 2019

¹ Section 63.71(a) directs applicants to submit a copy of the application to the Secretary of Defense, Special Assistant for Telecommunications. However, due to restructuring within the Department of Defense, that position no longer exists. Commission staff has advised that a copy of the application be sent instead to the Department of Defense Chief Information Officer.
